So come and enjoy a second childhood or your first as you play some of these family favorites!

Grandcon Tabletop Game Spotlight Table #17

It will be a spotlight on the newest, hottest games in the Tabletop Industry, along with some classic favorites! Something for every play style so stop by and choose your fun!

Pooky No! Table #19

Do you want to be in a fantasy adventuring party relaxing at an inn, challenging your friends to drinking contests and casting silly spells? Or would you rather be a character in the Wild West and trying to survive a goofy saloon fight? There are games for that and more, so feel free to swing by the Slugfest Games table and have some fun! The main goal of SlugFest brand games is to provide good clean fun that is dripping with theme. They strive to make games that are easy to learn and quick to play, with a depth of strategy that is learned through playing. If you love humor paired with solid mechanics, then you've come to the right place!

GAME ROOM OFFERINGS Board & Card Games

Board & Card Games

Imagineers Tables #27

Welcome to your amusement park! It's not much now, but just give it time! Soon the gates will open, and eager guests will rush in to ride the latest rides! It's up to you and your fellow imaginative engineers to build a magically fun place that people will love — competing with them to make a name for yourself as the most famous park designer in the world! From your humble beginnings, you will fill the park with the best attractions, manage your staff, cleverly construct a thrilling roller coaster, and prove that you are the best Imagineer!

Over the course of several rounds in Imagineers, you must skillfully guide your guests around the park, earning money to build new attractions, which leads to happiness, which earns you fame! Careful choices about which rides to build — and when to upgrade your showcase roller coaster — will ultimately decide your success! The Imagineer who amasses the most fame wins!

Magic: The Gathering Demonstrations Tables #12-15

Magic: the Gathering is the granddaddy of all collectible card games, set in a world where magic is real and conflict is never-ending. You take on the role of a Planeswalker, casting spells and summoning creatures in an effort to defeat your opponent before they do the same to you. We will be teaching this massively popular game and every participant will be given a Magic Welcome Deck to take with them after being taught how to play.

The Mansky Caper Table #26

The Mansky Caper is an explosive press-your-luck game set in 1925. You and your "associates" are navigating and ransacking the mansion of Mobster Big Al Mansky while he's out of town. However, Big Al has rigged his rooms with thrilling plot twists and TNT booby traps! Players in the same room must share all the loot they find, but only the person who has stashed the most loot at the getaway car is the winner! Each player has a special ability which can only be used by OTHER players when they "Call In A Favor". Choosing when to work together and when to fend for yourself is the key to victory; make sure you stash your wealth before it goes BOOM!

Rocks Fall, Everyone Dies Tables #22

Rocks Fall, Everyone Dies is a dungeon crawling with a twist: emulating a D&D-like roleplaying game, you don't control the party, but rather the one in charge of the adventure itself. You and the other players will play out events on the board that the parties will encounter, and use DM cards to twist the game in your favour. Delve down the dungeon and prepare your party as much as possible to conquer the challenge that awaits at the end while sabotaging as much as possible for the other parties. Whoever clears the selected challenge first wins.

Smirk and Dagger: Goodies for Days Tables #23

Multiple games by the fun loving people at Smirk and Dagger Games will be available. Known for their creative and swiftly moving games that often encourage good natured 'attacks' on the other players to be the last one standing they are always good party fun.

Examples include *Nut So Fast*, a family friendly favorite wherein you try to match but only if you are faster than your opponent. Or maybe an adventure is more your style? Then try *Cutthroat Caverns*, now with new material! Each round, any monster encountered will have a prestige value, will you become the most famous adventurer of all? Or be left unknown to the masses? A unique combination of cooperative game play and opportunistic backstabbing. Or perhaps you wish a more elegant game? Then *Shobu* is for you, The word "Shobu" means a competitive match in Japanese. Learn to play in five minutes, but this simple game of teams of colored stones is more complex than it appears. These are just a few of the great games awaiting you, so stop by and try your luck!

Tanks and DPS: Fleecing Olympus and Istanbul or Constantinople? Table #32

Two great Tanks & DPS titles will be offered here. *Fleecing Olympus*: Ages ago, Zeus won control of Mount Olympus in an epic dice battle against Hades. Now, after ages of toiling in the underworld, Hades has finally convinced the other gods and goddesses that the time has come to challenge Zeus for control of the throne. As one of these powerful deities, you possess great power and the drive to make Olympus your own, but will luck also be on your side?

Istanbul or Constantinople? A city with many names over the years and many opinions on those names. Players are attempting to sway the streets into lining up with their favorite name for their city. Use cards to modify your odds and try to convince the populace your name is the right one.

Card Games

Munchkin Table #34

Kill the monsters. Steal the treasure. Stab your buddy. *Munchkin* is a card game with a humorous take on dungeon role-playing games. Build up your character with Kneepads of Allure, Boots of Butt-Kicking, Pretty Balloons, or the dreaded Duck of Doom. Use your ... uh ... weapons ... to defeat the mighty Potted Plant, the fierce Gelatinous Octahedron, or the much-feared Large Angry Chicken. Once you've battled your foe and won, gain a level and collect the treasure. But wait! Your opponent might interfere with a curse or monster enhancer at the last second. Is that a cheat card in your hand? Who will be the first to slay the beasties and reach the 10th level? Easy to learn, this is a great game for beginners and fun for experienced players, too.

Yu-Gi-Oh! Tables 10, 11

The *Yu-Gi-Oh!* trading card game allows kids, teenagers, and adults to relive the exciting Duels that take place in the animated *Yu-Gi-Oh!* series. In the *Yu-Gi-Oh!* trading card game, players use the cards they've collected to construct Decks consisting of 40 or more cards. Then, they use their Decks to face off against opponents in a game of strategy, luck, and skill. We will be teaching this massively popular game, so new players welcomed!

Scythe/Nevermore Table #5

Scythe is a board game set in an alternate-history 1920s period. It is a time of farming and war, broken hearts and rusted gears, innovation and valor. Each player represents a fallen leader attempting to restore their honor and lead their faction to power in Eastern Europa. Players conquer territory, enlist new recruits, reap resources, gain villagers, build structures, and activate monstrous mechs.

Do you have the ability to come out ahead? Will you be the Great Innovator or Warlord who will control all? Come check out this swift moving game of depth.

Or perhaps *Nevermore* is more your style. One can also choose this quickly moving card game to be the first one to gain the power. Many are the paths to power: brute force, subtle deception, cunning trickery. You hold the cards...but you can't keep them all. What will you decide to collect for personal gain? And what are you willing to give up in order to destroy? The Ravens are gathering, many of whom used to be rivals. Will you rise to power or simply be...nevermore.

Nevermore is a casual-style, card-drafting game in which you quickly build your hand each round, collecting cards you want and poisoning your opponent's hand by passing along cards you think they can't use. Will you transform all your rivals into ravens—or can they regain their human form in time to score enough victory to win?

Role Playing Games

This is where you take on a character role in a verbal story and use dice to randomize action results. Great fun for imaginative players! You can be a great hero in an epic fantasy adventure or just some guy trying to survive the zombies, up to you!

***Forbidden Island* Table #35**

Dare to discover *Forbidden Island*! Join a team of fearless adventurers on a do-or-die mission to capture four sacred treasures from the ruins of this perilous paradise. Your team will have to work together and make some pulse-pounding maneuvers, as the island will sink beneath every step! Race to collect the treasures and make a triumphant escape before you are swallowed into the watery abyss! This is a live action version of the fun and fast paced tile game *Forbidden Island*.

***Amtgard Live Action Role Playing* Table #36**

Also at Geek Fest are representatives from AmtGard: Live Action Role Play Demonstration Team. *Amtgard* is a world-wide organization dedicated to medieval and fantasy combat sports and recreation. They use padded weapons, fantasy and authentic clothing, and imagination to immerse players in a world of heroic combat, quests, crafts, and more. They will be running demos throughout the day open to public participation, just outside (weather permitting). amtgard.com

***Ludosports* Table #37**

Ludosport is a Light Saber fencing combat discipline started around 10 years ago in Milan, Italy by a group of martial artist friends who loved the *Star Wars* movies. They saw the iconic weapon as a way to bring people from all walks of life together for fun and fitness. The Organization has spread across Europe into many different countries and finally made it's way here to the USA 3 years ago.

As a system of sporting combat, it boasts an intricate 10 year curriculum consisting of 10 different styles or forms inspired by the films and books of the *Star Wars* universe. As a whole, the Ludosport community is the primary drive of the organization, and we remain true to being an all inclusive and accepting group of people. Come see a demo of our fighting style or join in! It is open to the public. Practice area will be outside in the back, weather permitting.

***The Sandstone Secret* Table #24**

A Pathfinder Society Scenario designed for levels 1–4 (Subtiers 1–2 and 3–4). When the Pathfinder Society receives word of a promising, unexplored ruin in Osirion, the PCs set out to uncover the site's secrets. Yet upon arriving, the PCs learn that a different group of Pathfinders has already entered the ruins. Has there been some mistake, is the site's magic playing tricks on everyone, or is there something more nefarious afoot? (Characters Provided)

***Filling in the Gaps* Table #2**

The Lord of Frellington needs intrepid adventurers to cleanse the passages below the castle of foul beasts. Do you have what it takes to slay the creatures and return safely? Test your mettle in this 5th addition D&D adventure. (Characters Provided)

***Shattered World* Table #3**

The world is gone, literally shattered as the universe suddenly split from reality as you know it. Only the places that hold in people's hearts and minds remain; with the lesser known regions being lost. If someone travels into those places, they can get lost into the unknown. Stick to the well traveled paths and places, if you can. It's time to fix the world. (Characters will be provided.)

***Here There Be Monsters* Table #25**

Most people don't believe in monsters; but you know the truth. They're real and it's your task to bring them down. Expect about a half-hour of character creation and game introduction before a fast-paced, narrative-focused chance to save the world from certain doom. This session will feature an apparent zombie outbreak at a modern-day music festival. As police surround the festival and the National Guard is called in, will our heroes be able to get the dead to lie back down before things get really out of control? No prior knowledge of rules or game system required.

***Paint and Take Gaming Miniatures* Table #16**

Part of the fun of tabletop gaming is painting the miniatures. A little color makes an army stand out on the table and brings your characters to life. Our *Paint & Take* is the perfect spot for attendees to enjoy this aspect of the hobby. Never picked up a brush before? Our expert will guide you through the basics of miniature painting. All materials are provided—even a free mini. Looking for something to do between games? Here's a great place to crack open a new blister for assembly or touch up a broken model. An old pro at painting? Stop by our tables to put some last-minute touches on one of your own and see what other folks are working on. All ages and skill levels are welcome. Children under 12 must be accompanied by an adult

GAME ROOM OFFERINGS RPG Games

Operation Market-Garden **Table #33**

Operation Market-Garden was a bold plan, designed to capture the Rhine crossings along the Dutch-German border and establish a foothold to advance into Germany. If this daring operation was successful, World War II could have been over by Christmas 1944. Featuring a massive combined arms operation involving airborne landing and an armored thrust into Holland, *Operation Market-Garden* was one of the most dramatic and controversial operations of the Second World War. Bolt Action puts you in command as you lead your army to victory. Can you drive the Allied army across Hell's Highway, capturing the necessary bridge crossings to reach the Rhine? Or can you use the last of Germany's armies to stall the Allies in the west long enough to sue for peace? The choice is yours when you lead an army of Allied or Axis troops in one of the last great battles of WWII.

X-Wing Miniatures **Table #29**

Control the most advanced starfighters and outstanding pilots in the galaxy! In *X-Wing Miniatures Game*, you take the role of squad leader and command a group of merciless Imperial or daring Rebel pilots in furious ship-to-ship space combat. Featuring stunningly detailed and painted miniatures, X-Wing recreates exciting Star Wars space battles from small engagements of only a couple of craft to large conflicts where multiple squadrons clash. Select and equip your ships, pick your crew, plan your attack, and complete your mission.

GAME ROOM OFFERINGS Video Games

Artemis Spaceship Bridge Simulator **Table #7**

Artemis Spaceship Bridge Simulator lets you turn any room into the bridge of a spaceship. You and your friends assume the positions of Captain, Helm, Science, Communication, Engineering, and Weapon Control. Together, you operate your ship and defend the sector from evil aliens.

Artemis simulates a spaceship bridge by networking several computers together around a table. One computer runs the simulation and the "main screen", while the others serve as workstations for the normal jobs a bridge officer might do. One player plays the Captain, a person who sits in the middle, doesn't have a workstation, and tells everyone what to do. Missions will run about 30 minutes; signups will be available for each 30 minute slot from the GM (11:30 am, 12 pm and so on). The last slot will run 30 minutes from event close.

Super Smash Brothers Ultimate Tournament **Tables #38, 39**

This event will be a single elimination tournament held on the Nintendo Switch. Players may bring their own controllers if they'd like, but must use the in-house set-ups.

If you'd like to enter the bracket in advance, please visit:

challonge.com/UltimateGeekfest for the full set of rules and regulations!

In order to sign up online, participants will need to click the orange "Go To Registration" button at the top of the page and enter their username and email address. Challonge should then notify them via email that they have entered the bracket. Note: Participants can also sign up at the event, please see the L.F.G Smash Bros station for details.

A Trip to the Arcade **Table #6**

Once Upon a Time (Mainly the 1980's), in a galaxy, far, far away (literally every city in America). There were these alien devices that were not portable (We know we were surprised too). If one wanted to play a game on these devices, one had to go to an Arcade and stand there while playing, putting quarters in. Though still popular in some gaming circles, Arcade games are not as common as they once were so come check out this blast from gaming past by playing *Qbert*, *Ms. Pacman* or *Galaga*. No Quarters required!

Enjoy!
